

## EVOLUTION PBX

Introducing the next generation of voice communications. The **Evolution PBX** offers state of the art IP telephony features in a highly intuitive, low maintenance PBX. With the **Evolution PBX** small businesses, entrepreneurs, and sales professionals can have a communications system that functions similar to the million-dollar PBX systems FORTUNE 500 companies use. You get big business features that don't require a computer degree to use!

Designed to enable a small business without an IT staff to benefit from the recent wave of telephony enhancements, **Evolution PBX** packs features commonly available in high end systems in a simplified easy to use package. The days of calling your telecommunications supplier to enable another extension on your PBX are gone. With **Evolution PBX** you simply plug your phone into a standard network jack and let the system do the rest. All the configuration is

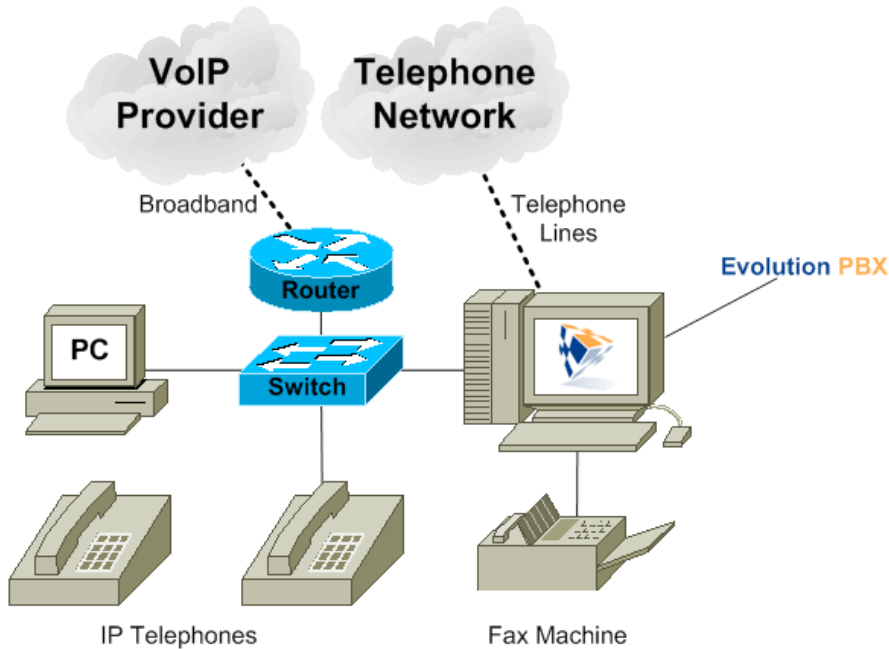

done through an easy to use web interface. Good communication with customers and suppliers is critical. Let us make it your reality.

Don't be left behind by the evolution of telephony through the power of Voice over Internet Protocol. Contact Intuitive Voice Technology for a free trial of **Evolution PBX**.
